

DELIVERABLE D.T 1.2.2

ANALYSIS OF ESTABLISHED PROJECTS
AND SYNERGY PLAN

Version 1
11/2019
PP6

Introduction

The aim of Analysis of established project results is find synergies and good practices to build upon during the implementation of actions foreseen in the project CE Responsible - ALTRUISTIC ENTREPRENEUR, CE Sustainable model to support. The report includes analysis of established projects dealing with social entrepreneurship ecosystem and synergy plan. The project consortium with 11 partner on board analyzed projects implemented in diverse transactional programmes implemented in the programming period 2014-2020 available across Europe. Partners then selected those, which they recognized as having complementing content and outputs. The aim of the consortium is built upon this results and good practices in process of implement own tools, strategies and pilot actions. The researched programmes included in this report are:

45 projects dealing with social entrepreneurship funded from 10 different programmes.

- *Interreg CE*
- *Interreg Danube (DTP)*
- *Interreg MED*
- *Interreg Alpine Space*
- *Baltic Programme*
- *Horizon 2020*
- *Creative Europe*
- *Erasmus +*
- *Interreg Europe*
- *Interreg North-West Europe*

Partners identified 45 projects granted from 10 funding programmes (please see in Annex 1) where they indicated the start and end of projects, acronym and title of projects and following explored aim of projects, key documents for CE Responsible, outputs and their availability, and finally searched for synergies for the CE responsible projects.

The social entrepreneurship is a cross-sectoral economic activity addressed with different EU policies including those focusing on industry, entrepreneurship and SMEs, employment, social affairs and Inclusion. Social entrepreneurship combines many aspects of doing business with social and societal impact. As such, many challenges demand to be addressed within the ecosystem and EU projects. The report seeks to identify those that could be capitalized with the project CE responsible. The report contains overview of EU projects analyzed and categorize them into six groups based on problems their tackle the most, with aim to provide clearer picture of topics solved within projects targeting social entrepreneurship:

- 1) Focus on specific area,
- 2) Education and empowerment of young people,
- 3) Access to finance,
- 4) Concepts and policy recommendation,
- 5) Ecosystems and networks,
- 6) Capacity building in companies

The projects analyzed by partners in desk research bring interesting and valuable practices for the CE responsible project and its foreseen actions, most remarkable synergies and plan to build upon the results is summarized in four categories:

- Research and strategies to build upon
- Capacity buildings to be inspired
- Platforms
- Inspiring Actions

Analysis on focus of projects dealing with Social Entrepreneurship

Since social entrepreneurship combines different aspects of doing business with social and societal impact many challenges demand to be addressed within the ecosystem and EU projects. The overview looks closer at focus of projects listed by CE Responsible project partners categorizing them in six groups according their main challenge tackled: Focus on specific area, Education and empowerment of young people, Access to finance, Concepts and policy recommendation, Ecosystems and networks and Capacity building in companies.

Specific areas in social innovation: Health and wellbeing, rural regions, eco area and green economy, Industry 4.0, Culture, Digital social innovation, Social inclusion

- **Health and wellbeing:** *Improve dementia care* in the Danube region and contribute to the implementation of national dementia strategies with the scope of enhancing the quality of life of people with dementia and their careers. (Indeed, DTP)
- **Rural regions:** The main objective of the project is to promote **social entrepreneurship in rural regions** with special transformation challenges to advance economic and social innovation. (DelFin, Interreg CE)
- **Rural regions:** *Empowerment in social service provisions in rural areas in the Baltic Sea Region.* The project aims at improving the social service infrastructure by empowering end-users to participate in service design and delivery. (SEMPRE, Interreg Baltic)
- **Eco area and green economy:** The project's aim is to *increase the capacity of design centres, professionals and lecturers in ecodesign, leading to an advanced performance in non-technological innovation.* Applied, EcoDesign can have an impact on the circular economy model in the Baltic Sea Region by reducing carbon emissions and increasing employment. (EcoDesign, Interreg Baltic)
- **Eco area and green economy:** The project helps exploit arising *business opportunities in consumer clean technology for small and medium sized enterprises, start-ups and intermediaries in the Baltic Sea region by shaping models for networking, partnerships and cultural cooperation.* (Starup, Interreg Baltic)
- **Eco area and green economy:** *The ECOLABNET project sets up a network across the value chain of products that integrates product-service system designers, bio-based material researchers, 3D print technology providers, eco-branding specialists and business developers in order to drive sustainable eco-innovations.* (EcoLabNet, Interreg Baltic)
- **Digital social innovation:** The InnoCAPE project designs *a cooperation model to develop a digital innovation ecosystem in the Baltic Sea region by exploiting the potential of the continuous digitalisation of value chains called Industry 4.0.* (InnoCape, Interreg Baltic)
- **Digital social innovation:** OpenMaker brings together mainstream manufacturers and makers (i.e. tech-savvy craftsmen driven by social innovation and open source principles) in an purposely designed ecosystem built to enable cross-boundary partnerships for innovation. (OpenMaker, Horizon 2020)

CE RESPONSIBLE

- **Digital social innovation:** The DSI4EU project will support, grow and scale the current Digital Social Innovation network of projects and organisations, bringing together social entrepreneurs, hackers, communities and academics working on key DSI fields such as the makers movement, the collaborative economy, open democracy and digital rights (DSI4EU, Horizon 2020)
- **Digital social innovation:** Open4citizens he project aims at shows the potential of open data to citizens, by creating open playgrounds where citizens, students, experts, start up companies, academia and public institutions can collaborate to generate meaningful applications. (Open4citizens, Horizon 2020)
- **Digital social innovation: support to policy makers, funders and, most importantly, practitioners to scale digital social innovation (DSI) and collective awareness platforms (CAPs) in Europe (DSISCALE, Horizon 2020)**
- **Social inclusion:** Solution to stimulate and motivate the labour demand from SMEs to refugees and asylum seekers (RASs) through social cooperatives involvement (CONNECT REFUGEES AND WORK, Horizon 2020)
- **Culture: Examining pre-industrial craft production in relation to post-industrial electronics, digital media and permaculture, we bring together models from both sides, SEEKING new models for cultural regeneration.** (EITC, Creative Europe)
- **Culture: Develop contemporary theatre** to create aesthetic, political and social impact such as social innovation, micropolitical change, new public arenas, aesthetic breakthroughs and emancipation. (Create to Connect -> Create to Impact, Creative Europe)
- **Social inclusion:** Solutions to give evidence of the social value obtained with the work inclusion of people with disadvantages and solutions to improve the work in inclusion. (NEXT MISSION: INCLUSION, Horizon 2020)

Education and empowerment of young people towards social entrepreneurship

- System change to support weak entrepreneurial culture and low engagement to social innovation and entrepreneurship. **Strengthen social innovation and entrepreneurial spirit of secondary schools'** students by development and introduction of highly innovative Learning System. (InnoSchool, DTP)
- Unlocking the potentials for **business and social innovation in the Danube Region by equipping young people with new generation skills.** The project reates innovative local support schemes going beyond existing fragmented initiatives taking the form of INNOVATION LABS joined in a transnational network. (NewGenerationSkills, DTP)
- **Creates transnational entry routes into international careers for generations of talented emerging artists, enabling them to make a living from creative production;** Makes cultural/creative incubators more entrepreneurial, innovative and transnational; Boosts transnational mobility and entrepreneurial learning opportunities for arts graduates, art educators and incubator leaders; (NE©XT, Accelerator, Creative Europe)

CE RESPONSIBLE

- **The project aims to develop and increase students' sense of initiative and entrepreneurship, improve their basic skills, and assist them in acquiring skills and knowledge in social entrepreneurship** that will help them with future employability or possible business creation. (Creative Paths for Young Social Entrepreneurs, Erasmus +)
- **Project intends to develop the professional profile and the online training course to be trained as ESII - European Expert in Social Innovation Incubation** (ESII, Erasmus +)
- Common Good First creates a digital network to identify, display and **connect social innovation projects in South Africa to each other and to universities around the world for research, student engagement and learning and teaching.** (Common Good First, Erasmus +)
- The main aim is to cooperate for innovation and to exchange good practices, prioritizing:
- An open and innovative practices in digital era, - **A promotion of entrepreneurship education and social entrepreneurship among young people.** (YDSI, Erasmus +)
- The aim of the project "Hosting Social Innovation" is to **show the importance of social innovation and to provide specific tools, which will help people to implement their ideas and visions.** (Hosting Social Innovation, Erasmus +)
- Addressing NEET and school drop encouraging early connections between secondary school students and entrepreneurs. (GET BACK TO SCHOOL!, Horizon 2020)
- The goal of AFEL (Analytics for Everyday Learning) is to develop, pilot and evaluate methods and applications, which advance informal/collective learning as it surfaces implicitly in online social environments (AFEL, Horizon 2020)

Access to finance

- Creating the first "**Social Impact Investment Strategy for the Danube region**" by paving the way for promoting more social innovations and social impact investment ready social enterprises. (Finance4SocialChange, DTP)
- **Increase the number of business angels and improve their investment competencies** (CE-Connector, Interreg Central Europe)

Social Innovation concepts and policies

- Provide public authorities, business support organizations & sectoral agencies with common **criteria/concept of Social Innovation (SI) between Alpine Social Space regions**, propose new tools, methodologies and guidelines in order to help business support organizations and sectoral agencies to better support sustainable and Social Innovation projects.(ASIS, Alpine space Interreg).
- The project fosters the **implementation and improvement of research and innovation strategies for smart specialisation in medium sized cities in the Baltic Sea Region.** (Empinno, Interreg Baltic)
- **A traditional procurement model does not consider re-use or recycling of purchased goods or services. The project promotes a circular procurement model**, which takes

CE RESPONSIBLE

into account the lifecycle of products throughout the supply chain. (Circular PP, Interreg Baltic)

- **Yellow Harbour is a new business model based on the servitisation of CSR development**, planning and management for business and NGOs. Project's service is an iterative process of assessment, matching, development, planning and implementation. (Yellow Harbour, Horizon 2020)

Social entrepreneurship ecosystem and networks

- Create a **transnational network of social enterprises and businesses, (social) financial investors, policy-makers, academia, NGO practitioners** which will jointly promote an innovative social enterprise model as well as social innovation for the sustainable economic development of the Danube region. (Senses, DTP)
- To **develop smart strategies and action plans for regional innovation ecosystems and a transnational network**; implement regional ecosystems and transnational network; improve the skills and competences of start-ups / young SMEs. (CeriEcon, Interreg Central Europe)
- The Social(i)Makers project aims to **improve social innovation capacities by working with financiers, entrepreneurs, policy makers and citizens on how to generate new lively ecosystems** as a bottom-up result of their interactions. (Social(i) Makers, Interreg Central Europe)
- RaiSE brings together six pro-active regions and one advisory partner to **address the common challenge of enhancing competitiveness of social enterprises**. (Raise, Interreg Europe)
- **Increase the resilience of non-governmental cultural centres across Europe and beyond**. (Factories of Imagination: Investing in Cultural Changemakers, Creative Europe)
- The project aims to make **use of the different regional policy instruments and frameworks** by exchanging good practices with each other in order to **deconstruct barriers, raise awareness and improve business support schemes for Social Enterprises**. (Brese, Interreg Europe)
- The aim of SMART-map is to connect a wide range of industrial players with actors from research and civil society organisations and establish innovative formats of collaboration to jointly discuss, define and implement concrete roadmaps (SMART Maps) for the responsible development of technologies and services in three key time-changing fields. (Smart map, Horizon 2020)
- SpareSpace wants to find the hidden entrepreneurs who, for the most part, work in the so-called dark economy. In doing so, SpareSpace improves the livability of towns and city centers. (FIND & TRIGGER HIDDEN ENTREPRENEURSHIP, Horizon 2020)
- The main objective of SOCRATIC is to facilitate a platform so citizens and/or organisations can collaboratively identify specific innovative solutions for achieving the desired Global Sustainability Goals (Socratic, Horizon 2020)

Capacity building in companies

- The ROSIE project aims to **improve skills among entrepreneurs and innovation actors to promote responsible innovation in companies**. The project will also develop and test tools and training to improve capacity to implement innovation responsibly. (Rosie, Interreg Central Europe)
- RESILIENT puts together a 4-helix partnership of 8 MED countries **to tackle the need for innovation conducive to increased socially-responsive competitiveness of SMEs & stimulate new jobs, especially for companies operating in the social economy**. It aims to kickstart a process of policy change at regional level in the involved areas resulting in the integration of successful elements into the new Cohesion policy (EU2020+), (RESILIENT, Interreg MED).
- **Business intermediaries, owner-managers and universities jointly develop and apply innovative tools and methods for business counselling that respond to the specific needs of owner-managers of small and medium sized enterprises (SMEs)**. (Snowman, Interreg Baltic)
- The project **improves the competences of business support organisations in terms of business transfers**. They jointly design and apply innovative tools to better support upcoming business successors. (Inbets, Interreg Baltic)
- **Academy - the first European, fully online management training programme focusing exclusively on social innovation. The project targets managers of companies, NGOs/civil society organisations and intermediaries (hubs, incubators, labs etc.) as well as (aspiring) social entrepreneurs** willing to learn how to set up and run social innovation initiatives to solve the most pressing societal challenges of our times. (Socia, Erasmus +)

Identified synergies

Research and strategies to build upon	Capacity buildings to be inspired
<p>Synthesis Report on Policy Niches and Benchmarking in the Danube region (social entrepreneurship area) by Senses DTP</p> <p>First results from the quantitative study and State of art synthesis on social entrepreneurship by ASIS, Interreg Alpine Space</p> <p>Recommendations to public authorities on how to adapt public policies to social innovation, by ASIS, Interreg Alpine Space</p> <p>Methodological resource database: a collection of facilitation tools and methods to evoke social innovations by Hosting Social Innovation, Erasmus +</p> <p>European Digital Social Innovation Index, Construction Methodology, by DSISCALE, Horizon 2020</p>	<p>THE ECVET PROFILE OF THE EUROPEAN EXPERT IN SOCIAL INNOVATION INCUBATION by ESII, Erasmus +</p> <p>Social Innovation Academy (e-learning) by SOCIA, Erasmus +</p> <p>The platform and e-learning platform by Social(i)makers, Interreg Central Europe</p> <p>Industrial Dialogue and Training Materials by SmartMap, Horizon 2020</p> <p>Transnational Dynamic Learning Package (e.g. Social Innovation Bootcamp) by NewGeneration Skills, DTP</p> <p>Playpark concept- Training material by CeriEcon, Interreg central Europe</p>
Platforms	Inspiring Actions
<p>Platform to identify specific innovative solutions for achieving the desired Global Sustainability Goals by Socratic, Horizon 2020</p> <p>Collaboration playground by, Open4Citizens, Horizon 2020</p> <p>The Support Network for Social Entrepreneurs, network of social entrepreneurship hubs by SuNSE, Interreg North-West Europe</p> <p>Platform Worldcoo which match NGOs project with donors, companies as well private person by Widget 3.0, Horizon 2020</p> <p>Virtual Reality content viewing platform Hikaru for immersive experiencing NGOs' projects by Mokita, Horizon 2020</p>	<p>"EcoDesign Audit", a diagnostic tool for enterprises and public organizations to assess their ecodesign capabilities by EcoDesign, Interreg Baltic</p> <p>Good Practices of R+D Transfer, SME Empowerment, Matchmaking, by EMPINNO, Interreg Baltic</p> <p>Designing Action plan, stakeholders meetings, findings and conclusions by PlansRaiSE, Iterreg Europe</p> <p>Sempre Empowerment Handbook for everyone who works within social services by Sempre, Interreg Baltic</p>

17.04.18 - 16.04.21	ASIS	Alpine Social Innovation Strategy	provide public authorities, business support organisations & sectoral agencies with common criterias/concept of Social Innovation (SI) between Alpine Social Space regions in order to create a common vision of SI and launch the first steps to develop a shared SI strategy for economic development. (2) Propose new tools, methodologies and guidelines in order to help business support organisations and sectoral agencies to better support sustainable and Social Innovation projects and improve cooperation between them on that topic. (3) Give recommendations to public authorities on how to adapt public policies to social innovation challenges through a "white paper" and how to support funding bodies in a new approach of funding principles.	https://www.alpine-space.eu/projects/asis/en/home	<p>A common vision of social innovation in ASP https://www.alpine-space.eu/projects/asis/en/project-results/deliverables/wpt1-a-common-vision-of-social-innovation-in-asp</p> <p>State of art synthesis file:///C:/Users/fhs12006/AppData/Local/Temp/state-of-art-synthesis.pdf</p> <p>Methodology to prepare Guidelines and Trainings file:///C:/Users/fhs12006/AppData/Local/Temp/methodologies-trainings-tools-guidelines.pdf</p> <p>Report of state of the art on social innovation funding policies file:///C:/Users/fhs12006/AppData/Local/Temp/d.t4.1.1_report-on-social-innovation-fundings.pdf</p>	<p>The platform for social innovation strategy will inform about ASIS</p> <p>Project outputs and propose a new vision to target groups in the alpine space.</p> <p>https://socialinnovationstrategy.eu/</p> <p>Project Results / Deliverables</p> <p>https://www.alpine-space.eu/projects/asis/en/project-results</p>	<p>provide public authorities, business support organisations & sectoral agencies with common criterias/concept of Social Innovation (SI)</p> <p>tools, methodologies and guidelines in order to help business support organisations and sectoral agencies to better support sustainable and Social Innovation projects</p> <p>recommandations to public authorities on how to adapt public policies to social innovation</p>

Interreg Baltic Sea Region

Project start and end	Project Acronym	Project title	Project aim	web page	Key documents for CE responsible (add link)	Project outputs and their availability	Synergies identified
March 2016 - February 2019	ECODESIGN	Ecodesign Circle	The project's aim is to increase the capacity of design centres, professionals and lecturers in ecodesign, leading to an advanced performance in non-technological innovation. Applied, EcoDesign can have an impact on the circular economy model in the Baltic Sea Region by reducing carbon emissions and increasing employment.	https://projects.interreg-baltic.eu/projects/ecodesign-circle-6.html AND https://www.ecodesigncircle.eu/	Sustainability Guide: https://www.ecodesigncircle.eu/resources-for-you/sustainability-guide/ ; Ecodesign Audit: https://www.ecodesigncircle.eu/resources-for-you/ecodesign-audit	Ecodesign Sprint, Roadshow, Learning Factory, Ecodesign Audit etc - all available here: https://www.ecodesigncircle.eu/resources-for-you	Networking with members of Network and using the "EcoDesign Audit", which "is a diagnostic tool for enterprises and public organisations to assess their ecodesign capabilities and performances and to identify possible circular design opportunities / approaches."
March 2016 - February 2019	SEMPRE	Social Empowerment in Rural Areas	The project promotes empowerment in social service provisions in rural areas in the Baltic Sea Region. The project aims at improving the social service infrastructure by empowering end-users to participate in service design and delivery.	https://projects.interreg-baltic.eu/projects/sempr-14.html AND https://www.sempr-project.eu/	Empowerment Handbook: https://www.sempr-project.eu/handbook/ ; Organisational Roadmap: https://www.sempr-project.eu/roadmap	Handbooks, Brochures, Events etc https://www.sempr-project.eu/results	Local Networks: https://www.sempr-project.eu/local-networks
October 2017 - September 2020	SNOWMAN	Supporting Non-technological Innovation in Owner-managed Manufacturing SMEs through increased capacity of business intermediaries	Business intermediaries, owner-managers and universities jointly develop and apply innovative tools and methods for business counselling that respond to the specific needs of owner-managers of small and medium sized enterprises (SMEs). Owner-managers of SMEs tend to be driven by different considerations than SMEs run by employed managers, for example, their own family's well-being, the employees' situations and lack of time for developing their own managerial skills.	https://projects.interreg-baltic.eu/projects/snowman-86.html AND http://snowman-ibsr.eu/	counselling toolbox and spider web tool: n/a so far	http://snowman-ibsr.eu/the-activities	contact to business intermediaries, universities and SME owner-managers
May 2016 - April 2019	EMPINNO	S3-Empowering for Innovation and Growth in Medium-Sized Cities and Regions	The project fosters the implementation and improvement of research and innovation strategies for smart specialisation in medium sized cities in the Baltic Sea Region.	https://projects.interreg-baltic.eu/projects/empinno-15.html AND http://empinno.eu/	Good Practices of R+D Transfer: http://www.empinno.eu/good-practices	http://www.empinno.eu/documents	contact to innovation intermediaries?
October 2017 - September 2020	INBETS	Innovative Business Transfer Models for SMEs in the BSR	Many small and medium sized enterprises face a crucial moment when the business gets transferred, e.g. when the owner retires and a new one takes over. Every year, more jobs are lost due to failed business transfers than new jobs are created in start-ups. The project improves the competences of business support organisations in terms of business transfers. They jointly design and apply innovative tools to better support upcoming business successors.	https://projects.interreg-baltic.eu/projects/inbets-bsr-96.html AND http://inbets.eu/	n/a	http://inbets.eu/	n/a

October 2017 - September 2020	SMARTUP	Improving smart specialisation implementation of the Baltic Sea Region through orchestrating innovation hubs	There is a growing interest in consumer clean technology, which is about reducing the environmental burden of consumption and is related to resource scarcity, rising energy and fuel costs, digitalisation and automatisisation. The project helps exploit arising business opportunities in consumer clean technology for small and medium sized enterprises, start-ups and intermediaries in the Baltic Sea region by shaping models for networking, partnerships and cultural cooperation.	https://projects.interreg-baltic.eu/projects/smart-up-bsr-151.html AND https://smartup-bsr.eu/	n/a	https://smartup-bsr.eu/community/	n/a
October 2017 - September 2020	CIRCULAR PP	Using innovation procurement and capacity building to promote Circular Economy	A traditional procurement model does not consider re-use or recycling of purchased goods or services. The project promotes a circular procurement model, which takes into account the lifecycle of products throughout the supply chain. The development of tools, exchange of best practices, training and building capacity among procurers, suppliers and policy makers for circular products stimulates the development of new business models.	https://projects.interreg-baltic.eu/projects/circular-pp-134.html AND http://circularpp.eu/activities-in-circular-pp/	Capacity Building activities http://circularpp.eu/activities-in-circular-pp/	http://circularpp.eu/activities-in-circular-pp/	Networking with members of Network
January 2019 - June 2021	INNOCAPE	Industry 4: transforming innovation ecosystem through better capacity of public enablers	The InnoCAPE project designs a cooperation model to develop a digital innovation ecosystem in the Baltic Sea region by exploiting the potential of the continuous digitalisation of value chains called Industry 4.0. The project helps public authorities create favourable conditions for digital innovation hubs (DIHs) that serve as intermediary bodies bringing together Research & Development and industry into digital industrial platforms. By bridging existing gaps, DIHs can efficiently implement Industry 4.0 policies, contribute to a better connected digital single market, and improve competitiveness of the region.	https://projects.interreg-baltic.eu/projects/innocape-184.html AND	n/a	n/a	n/a
January 2019 - June 2021	ECOLABNET	Network of Service Providers for Eco-innovations in Manufacturing SMEs	A lack of strong ties between small and medium sized enterprises and research centres hampers eco-innovations in the Baltic sea region. In parallel, there is untapped potential of implementing sustainable strategies in business, the example of which is a cohesive delivery of products and services. The ECOLABNET project sets up a network across the value chain of products that integrates product-service system designers, bio-based material researchers, 3D print technology providers, eco-branding specialists and business developers in order to drive sustainable eco-innovations, e.g. in medical diagnostics and electronics.	https://projects.interreg-baltic.eu/projects/ecolabnet-199.html AND https://ecolabnet.org/	Ecolab Network; https://ecolabnet.org/?page_id=150	https://ecolabnet.org/?page_id=169	Network

Central Europe Programme

Project start and end	Project Acronym	Project title	Project aim	web page	Key documents for CE responsible(add link)	Project outputs and their availability	Synergies identified
01.04.19 - 30.03.22	DelFin	Development of Financial Ecosystems for the Promotion of Social Entrepreneurship in Rural Regions (DelFin)	The main objective of the project is to promote social entrepreneurship in rural regions with special transformation challenges to advance economic and social innovation. Project activities will facilitate cooperation process of regional and local stakeholders in the financial ecosystem for social entrepreneurship in a rural environment.	www.interreg-central.eu/DelFin	Project just started, no docs available yet	Not yet	Possible cooperation on joint promotion of innovative tools for supporting social entrepreneurship.
01.04.19-30.3.2022	CE-Connector	The CE-Connector project will increase the number of business angels and improve their investment competencies.	The CE-Connector project will increase the number of business angels and improve their investment competencies.	https://www.interreg-central.eu/Content.Node/CE-Connector.html	Project just started, no docs available yet	Not yet	Possible target audience - business angels
2016-2019	CERlecon	CENTRAL EUROPE Regional Innovation Ecosystems Network	To develop smart strategies and action plans for regional innovation ecosystems and a transnational network; (2) To implement regional ecosystems and transnational network; (3) To improve the skills and competences of start-ups / young SMEs to advance economic and social innovation in central European regions.	https://www.interreg-central.eu/Content.Node/CERlecon.html	No relevant documents published yet	Not much published	Training material
2017-2020	ROSIE	Responsible research and innovation	The ROSIE project aims to improve skills among entrepreneurs and innovation actors to promote responsible innovation in companies. The project will also develop and test tools and training to improve capacity to implement innovation responsibly.	https://www.interreg-central.eu/Content.Node/ROSIE.html	No relevant documents published yet	Not much published	Tools
2017-2020	Social(i)Makers	Growing a Transnational Smart Community of Social Innovators for the Inclusive Development of Central Europe	The Social(i)Makers project aims to improve social innovation capacities by working with financiers, entrepreneurs, policy makers and citizens on how to generate new lively ecosystems as a bottom-up result of their interactions.	https://www.interreg-central.eu/Content.Node/Social(i)Makers.html	https://skyrocketplatform.eu/main https://social-innovation-academy.teachable.com/	Platforms are interesting	The platform and e-learning platform
01.06.17 - 31.05.20	ENTER-transfer	Advancement of the economic and social innovation through the creation of the environment enabling business succession	Every year many well-functioning family-run companies disappear due to the inability to find successors to the business leaders. Despite existing succession schemes in some countries, there is still overall limited experience and awareness on business ownership transfer. The project ENTER-transfer aims to facilitate business succession at national and transnational level. The project will develop innovative tools and services that will streamline the business succession process and help sustaining family companies.	https://www.interreg-central.eu/Content.Node/ENTER-transfer.html	Deliverables published with stakeholder involvement https://www.interreg-central.eu/Content.Node/ENTER-transfer.html	All Documents and Outputs https://www.interreg-central.eu/Content.Node/ENTER-transfer.html	matchmaking portal for companies that seek succession, a toolbox with practical guidelines for both succession seeking companies and succession seekers, and strategies for creating favourable conditions for business succession.

Creative Europe

Project start and end	Project Acronym	Project title	Project aim	web page	Key documents for CE responsible (add link)	Project outputs and their availability	Synergies identified
2011 - 2013	EITC	Euroaxacan Initiative for Transformative Cultures	Contemporary artistic interventions that engage with community workshops, social entrepreneurship and innovation as a catalyst for local economies in the rural townships within the Mexican state of Oaxaca, the residential city of Oaxaca and the European cities Reijmyre, Malmö, Stockholm, Brussels and London. How: By examining pre-industrial craft production in relation to post-industrial electronics, digital media and permaculture, we bring together models from both sides, SEEKING new models for cultural regeneration. Why: For the preservation of cultural diversity and a higher degree of resilience through traditional vocation and craftsmanship. For reconceiving the role of the artist within society and her contribution to the social and economic wellbeing of her place of residence.	http://euroaxaca.org/	Culture & Design as a Social Entrepreneur - http://www.beaming.com/www.beaming.com/2011/10/oaxaca-forum-on-social-innovation.html	Analysis of management models to support visual arts & creativity in Europe; Training, innovation and experimentation programme for the promotion of creativity; CreArt European Travelling Exhibitions; and Dissemination and transfer of activities and results: TEDtalk; website; different events; networking	Cultural production is intertwined with business development in order to guarantee a sustainable continuation of the project. The goal is to create an example with international relevance of how to encourage artistic creation, protect cultural identities and secure sustainable local economies.
2015-2018	NE@XT Accelerator	NE@XT Accelerator	Creates transnational entry routes into international careers for generations of talented emerging artists, enabling them to make a living from creative production; Makes cultural/creative incubators more entrepreneurial, innovative and transnational; Boosts transnational mobility and entrepreneurial learning opportunities for arts graduates, art educators and incubator leaders;	https://www.elia-artschools.org/documents/nex-accelerator-project-description	Detailed project description https://www.elia-artschools.org/userfiles/Image/customimages/products/154/necopyxt-accelerator-project-description.pdf	NEU/NOW festival; trainings; international network and platform for cultural entrepreneurship; Survey on cultural entrepreneurship (I could not find any reference)	Creation of cultural/creative incubators and tests of innovative models making incubating practices innovative and transnational. Project themes: 'international career training', 'innovative incubating', 'cultural entrepreneurship', 'new business models', 'access to finance and crowd funding and 'new ways of looking at creativity and audiences.
2018 - 2022	Create to Connect	Create to Connect -> Create to Impact	Develop contemporary theatre to create aesthetic, political and social impact such as social innovation, micropolitical change, new public arenas, aesthetic breakthroughs and emancipation. The aim of the project is to move from audience building to impacting stakeholders, from only connecting and engaging to consciously creating impact informed by anthropological research. We develop relationships not based on power structures but on collaboration and solidarity.	http://www.createtoconnect.eu/partners	Tool Kit http://www.createtoconnect.eu/good-practices/ Final publication http://www.createtoconnect.eu/wp-content/uploads/2018/10/142_Final-projects-publication_-_Performance-Public-Politics_LG_full-publication.pdf	events; publications; tools kit;	New approaches to educate the audience as well as the production models that will engage the audience in new innovative ways and trying to create new public arenas together with the audience, whether it be physically, through dialogue or participation. Arts and culture are seen as sectors that can respond to the crisis, especially to neuralgic points of the disengagement of citizens in the public sphere, to the disintegration of participation in public matters and to the diminishing sense of community.
2019 -2020	n/a	Factories of Imagination: Investing in Cultural Changemakers	Increase the resilience of non-governmental cultural centres across Europe and beyond. These centres bring together creatives and changemakers from a variety of sectors (arts, social, education, business, etc.), and contribute to the social and economic development of cities and regions.	http://teh.net/projects/factories-of-imagination/	Presentation : http://teh.net/wp-content/uploads/2016/01/Factories-of-Imagination.pdf	12 international summits, conferences and meetings; 3 training programmes providing more than 20 on-site trainings opportunities; 20 publications; support the development of 12 emerging cultural centres.	connecting non governative and non-profit actors to also profit and business actors with a social aim

1.1.2018 - 30.06.2019	DSISCALE	Supporting the scale and growth of Digital Social Innovation in Europe through coordination of Europe's DSI and CAPS Networks	The DSISCALE project aims to support policy makers, funders and, most importantly, practitioners to scale digital social innovation (DSI) and collective awareness platforms (CAPs) in Europe and to make the most of the opportunities in using tools such as open data open hardware to address some of Europe's biggest social challenges.	www.digitalsocial.eu	DSI index - https://digitalsocial.eu/dsi-index/viz ; Methodology report - https://digitalsocial.eu/images/upload/87-EDSII-Construction-Methodology.pdf	Development of web platform http://www.digitalsocial.eu ; Develop an index for measuring capacity for DSI; Map of current and emerging trends in DSI; Set of Learning and Policy recommendations.	Altru project can be added and promoted on the http://www.digitalsocial.eu ; Altru can use the methodology report
1.12.2017 - 30.04.2018	Yellow Harbour	Creating Partnerships between NGOs and Businesses	Yellow Harbour is a new business model based on the servitisation of CSR development, planning and management for business and NGOs. Through our Innovation, we have managed to streamline these processes and therefore we are able to scale up our operation and lower the cost substantially. Our service is an iterative process of assessment, matching, development, planning and implementation. We first assess the resources and the needs of both NGOs and Businesses. We then match NGOs and Organisations and eventually create and manage CSR programs that provide value for the society, the NGO and the participating organization. Through this Phase 1 project we would like to access the feasibility of commercialising our service across Europe.	http://www.yellowharbour.ie ; https://cordis.europa.eu/project/rcn/213251/factsheet/en	Model Vision 1 - https://www.yellowharbour.ie/fundraisingsolved	Yellow Harbour was established	Advisory, learning from the model Vision 1 (1 Vision is a service developed specifically to support Charities and Non-Profit organisations who are looking to hire Fundraising Specialists but who don't have the resources to compete with larger charities and secure top-class personnel at an affordable cost)
1.12.2018 - 31.05.2019	Mokita	The NGOs' virtual reality content viewing	The aim is to build the very first Virtual Reality content viewing platform for immersive experiencing NGOs' projects with an integrated donation, subscription and volunteer system, with the possibility of sponsorship by CSR. Match NGOs with donors.	https://cordis.europa.eu/project/rcn/218886/factsheet/en ; https://hikaru.pro/ngos-virtual-reality-content-viewing-platform/	No documents only platform. This platform allows the visualization of very diverse content in virtual reality, volunteer recruitment, one-time or long term donors' attraction, awareness of the actions that are being carried out around the world. Furthermore, the platform is integrated with a crowdfunding section to collect funds for specific causes.	A mobile social platform - https://hikaru.pro/ngos-virtual-reality-content-viewing-platform/	Inspiration for our platform. Our social entrepreneurs and altrupreneurs can be presented on the platform Mokita. There are such benefits for them:
1.2.2016 - 28.02.2018	Widget 3.0		To build a "click" tool. A Widget brings NGOs, companies	https://www.worldcoo.com/en/compan	Platform content.	http://www.worldcoo.com	The example of the platform which match NGOs project with donors, companies as well private person. The content of the platform, buttons, function can be used within Altru project.

1.05.2016 - 1.10.2018	SMART-map	RoadMAPs to Societal Mobilisation for the	<p>The aim of SMART-map is to connect a wide range of industrial players with actors from research and civil society organisations and establish innovative formats of collaboration to jointly discuss, define and implement concrete roadmaps (SMART Maps) for the responsible development of technologies and services in three key time-changing fields. Based on the Societal Challenges of Horizon2020, SMART-map will address the areas of precision medicine, 3D printing in the biomedical field, and synthetic biology. On each of these areas we will pair two regions of Europe, on the north/south and east/west axes, and the unique partnership will enable a comparative assessment of these innovation fields. On each theme, SMART-map will deliver an implementation plan, to be demonstrated, tested and assessed. SMART-map will build on the results of the FP7 ResAGorA project, adapted and integrated with other RRI and social responsibility frameworks (i.e. CSR). The project will reach its ambitious goals by developing a new format for open and collaborative dialogues between industry and societal actors (Industrial Dialogues) which will allow the co-design of concrete roadmaps.</p>	<p>https://cordis.europa.eu/project/rcn/203167/factsheet/en ; http://projectsmartmap.eu</p>	<p>Reports, Recommendations, Outputs: http://projectsmartmap.eu/deliverables/ ; A SMART Map is a tool meant for industries to reach and engage the right actors of society link is available.</p>	<p>Reports, Recommendations, Outputs: http://projectsmartmap.eu/deliverables/</p>	<p>Inspiration for our platform and other activities (meetings, dialogue, mapping process). The project has the same goal link NGO with companies. SMART-map aimed at giving voice to all the issues from different actors, from industry and from society. The project developed a new format to encourage the debate among the different stakeholders, the so-called "Industrial Dialogue". Innovators, as well as civil society organisations and lay people, were invited to participate in the Industrial Dialogues Events, in order to collect as many different perspectives and practical recommendations as possible.</p>
Deadline: 15/07/2018		GET BACK TO SCHOOL! ongoing till January 2022	+RESILIENT	Mediterranean Open REsouRcEs for Social Innovation of Socially Responslve ENTerprises	RESILIENT puts together a 4-helix partnership of 8 MED countries to tackle the need for innovation conducive to increased socially-responsive competitiveness of SMEs & stimulate new jobs, especially for companies operating in the social economy. It aims to kickstart a process of policy change at regional level in the involved areas resulting in the integration of successful elements into the new Cohesion policy (EU2020+). It is an integrated project that establishes a structural approach to policy & practice improvement of emerging dynamics in social innovation through an overarching process based on the intertwined use of open data & the creation of a transnational socially-responsive value chain. This includes studying existing initiatives, adapting and testing, with the final objective of capitalizing them in the MED area.	https://plus-resilient.interreg-med.eu/		To achieve the planned objectives partnership will produce the following results: <ul style="list-style-type: none"> - SVR Clusters implement sets of innovative transnational /common policies/operations, - SVRCs become integrated elements and measures of mainstream policy and funding, - SVRC generate jobs, skills and social cohesion, - SVRCs respond better to socially driven market requirements in different sub-sectors and in other MED areas.
